DEEP  
BLUE

# MULTI SYSTEM™

## Interchangeable Accessory System

One MSR Swivel Mount is all you need to start your Deep Blue MultiSystem. This innovative interchangeable rod holder system makes it easy to change from one component to another without the use of tools. Change your bait table to a food tray in seconds, or refill your reel right in the boat. Saves money over individual accessories, add additional accessories as needed.

**MARINE TOUGH**  
Designed For The  
Marine Environment

MS-4

Check out the construction, 100% marine-grade high density polyethylene that is U.V. stabilized for the marine environment. The surface will not rot or crack and will not absorb fish odors. The MSR features a polished stainless steel tube with a non corrosive clamp system, that means no metal to metal contact, which means your MultiSystem will withstand many years of use in the harsh saltwater environment. Don't settle for anything less.
